

Two-day Skill-building Training on The ASAM Criteria December 14-15, 2017

This two-day, application-focused training provides participants with an in-depth look at the theoretical foundations of the Criteria, including clinically driven services, biopsychosocial assessment, the six dimensions, continued stay and transfer/discharge criteria. Incorporating the use of the new edition of *The ASAM Criteria*, participants have opportunities for skill practice at every stage of the treatment process: assessment, engagement, treatment planning, continuing care and transfer or discharge.

All participants receive a copy of *The ASAM Criteria* and an in-depth Training Journal to guide the training and as a resource for continuing skill application.
